January 1, 2008

With a few years under our belt we look forward to a new year of great training for all our members. The South Central Oregon Section (SCOS) of the Pacific Northwest Clean Water Association (PNCWA) is the fastest growing section of the PNCWA. Last year the Operator of the year for the State of Oregon was chosen out of our section.

The immediate focus of SCOS is to make training available for Wastewater Treatment, Collection Systems, Water Distribution, and Water Treatment Operators and to get Section and Corporate members enrolled.

As President of SCOS, I would like to formally invite you to become a member of our Section. The fees are as follows:

- |  |                        |
|--|------------------------|
| <b>1. South Central Oregon Section Membership:</b>           | <b>\$5.00 Lifetime</b> |
| <b>2. South Central Oregon Section Corporate Membership:</b> | <b>\$100.00 p/yr</b>   |
| <b>3. PNCWA membership:</b>                                  | <b>\$25.00 p/yr</b>    |
| <b>4. WEF Membership:</b>                                    | <b>\$62.00 p/yr</b>    |

(PNCWA & WEF Membership may be completed online at [www.pncwa.org](http://www.pncwa.org))

Membership in the section is very important as it takes many dollars to facilitate training for operators. In addition, PNCWA/WEF memberships bring many benefits, which include, less expensive rates to the Annual PNCWA Conference, Training, Networking, etc. Corporate Members are highly valued by the Section, as they are the backbone, which keep the Section Running and provide Training for Operators in Southern Oregon. A benefit of Corporate Membership is your Logo with a link to your website will be on the SCOS site. Find us at [scos.pncwa.org](http://scos.pncwa.org)

Please take time and fill out the enclosed application for either, Section membership or Corporate Membership and to just to let you know the pricing for SCOS is minimum, we will always accept donations!

Warmest Regards;

*Jeff Boyd*

President, SCOS.
